## HISTORY

Pop Culture Classroom was founded in 2010 as Comic Book Classroom, a Colorado charitable organization focused on enhancing and improving student's learning experience through the use of comic book media.

Pop Culture Classroom debuted the first version of its Storytelling Through Comics curriculum to local area schools, and with the help of hundreds of dedicated volunteers, its largest program, Denver Comic Con, became a reality on Father's Day weekend, June 15, 2012. It was an unexpected and overwhelming success.

Proceeds from Denver Comic Con fund the staffing, supplies and infrastructure of The Classroom program, which gives educators fresh, innovative materials and training that use the power of pop culture to bring their classroom to life.

In 2014, the Comic Book Classroom Board of Directors voted to change the name to Pop Culture Classroom (PCC). The name change reflects the board's broader vision for the organization. In addition to expanding the reach of our current curriculum and offerings, PCC seeks to use other elements of pop culture to advance our mission of literacy education and to spark the creative spirit within every child.
